

# SIGNS OF A STROKE

---

*If you or someone else shows any of these symptoms, even if symptoms go away, call 911 immediately and tell them “I think this is a stroke.”*

- Face drooping or numbness, particularly on one side
- Arm weakness or numbness
- Slurred speech or trouble talking
- Sudden confusion or difficulty understanding speech
- Sudden trouble seeing in one or both eyes
- Difficulty walking, dizziness or loss of balance or coordination
- Severe headache with no known cause
