

Working Together for Your Health and Wellness

Penn Highlands Mon Valley
Community Care Network

No two persons' health care needs are ever the same. The coordination of **your** care — which could include multiple medications, appointments, physical therapy and other treatment options — may seem complicated. No worries, we are here to help.

Penn Highlands Mon Valley's Community Care Network (CCN) helps you put it all together. We work with you and your doctors as well as community providers to deliver the best care and support you need — when you need it. Our team is committed to helping you put it all together.

For more information, call 724-258-1CCN (1226).
